

Wood Pole Antenna & Equipment Mounting Solutions

for oDAS and Small Cell Sites

SMARTER CITIES

5G IS COMING

In order to be ready, mobile providers need to expand and densify their coverage and capacity by adding antenna locations between macro sites.

FFT offers oDAS and small cell site solutions for existing wood poles. All of our products are made in America.

Adjustable Wood Pole Top Mount

- Compatible with any diameter wood pole
- Adjustable leveling brackets accommodate for out-of-plumb poles up to 25° in both horizontal directions
- Universal antenna adapter allows for most commonly available antenna attachments
- Fiberglass mast arms keep the antennas electrically isolated allowing for safe construction and maintenance while also minimizing structure borne noise
- Fiberglass mast arms can be cut to length to obtain desired heights
